

HOPPSTAR

Explore the world!

THE IDEA

LOOKING FOR A DIGITAL KIDS CAMERA ...

... for our 4-year-old godchild, we have noted that there are no products on the market that create good quality images, are easy to use and are also visually appealing at the same time.

Hoppstar was born out of this very idea: To make digital kids cameras, with whom you can take great photos, are easy to use, are proportioned for children's hands and, moreover, have such a great design that you like to take them with you wherever you go.

For Hoppstar, kids cameras are not just a simple toy but a companion designed to help children to develop their creativity and observation power, promote their fine motor skills and connect them with their surroundings, family and friends. Hoppstar aims to give children the opportunity to immerse themselves into a new world, to be able to experience this moment and hold on to it.

*PLAYFUL LEARNING
STARTS WITH PRESSING
THE CAMERA SHUTTER
BUTTON.*

JUST TAKE PHOTOS

Of course not every shot turns out as a masterpiece right away, but every shot should fulfill the technical requirements that it can be one. That's why Hoppstar kids cameras offer the possibility to save or print out the photographic moments of your children for the future.

1

ATTRACTIVE DESIGN

Hoppstar values attractive design. We want to offer your child a companion that they are proud to take with them wherever they go. Many different and interchangeable designs ensure there is something for everyone.

2

MORE THAN JUST A TOY

Hoppstar wants to help children express their creativity, sharpen their observational power and develop their fine motor skills. Your child should be able to immerse themselves in a completely new world, experience it as a moment and capture it photographically.

3

NO GAMES

Hoppstar kids cameras are educational toys. We deliberately refrain from additional built-in games. To ensure the best experience of taking photos, all cameras have super cute photo filters and frames that kids can have fun with.

4

HIGH QUALITY AND LIGHTWEIGHT BUILT

Hoppstar kids cameras are made of high quality materials. These not only make them particularly robust against impacts, but also particularly light and comfortable in use.

5

SIMPLE, CHILD-FRIENDLY HANDLING

Large buttons ensure easy handling so you can familiarize yourself with all of the camera's functions as quickly as possible.

6

CHARGING AND DATA TRANSFER

Hoppstar kids cameras are equipped with a SD card slot (and a matching 16 GB SD memory card) as well as a Micro-USB charging cable slot for charging and transferring data.

7

CERTIFIED QUALITY

Hoppstar kids cameras are certified according to the following international standards:
CE, EN71, RoHS, CCC, MA.

8

DIGITAL CAMERAS FOR LITTLE EXPLORERS

HOPPSTAR ROOKIE

The Hoppstar Rookie impresses with its delightful design. The large buttons make it particularly easy to use.

The detachable silicone case offers protection against breakage and at the same time gives enough grip to be able to hold and handle the camera easily.

The Rookie has popular features like photo frames, photo filters and face recognition. It offers children many fun opportunities to explore their creativity and develop their skills.

Certified quality: CE, EN71, RoHS, CCC, MA.
